

GREEN PLANET

The Green Planet™

A distinctive indoor rainforest bio-dome called The Green Planet is situated in Dubai and offers guests an immersive and informative experience in a beautiful tropical setting. Here's what you can typically anticipate from a trip to the Green Planet as of my most recent update in September 2021:

Enter a rainforest in a tropical region:

The Green Planet is made to look like a tropical rainforest, complete with a wide range of exotic plants, trees, and animals.

As soon as you step inside, the sights, sounds, and smells of a real rainforest will surround you, giving you the impression that you have been transported to a another world.

Animals and Plants:

Discover an amazing variety of plant species as you explore the bio-dome, including towering trees, vivid flowers, ferns, and more.

Get up close and personal with a variety of amazing creatures that live in the rainforest, including sloths, snakes, birds, insects, and more.

Forest Walk:

Explore the forest floor, understory, and canopy as well as the other strata that make up the rainforest. From above, the canopy walk offers interesting perspectives.

Educational Displays

Visitors can learn about rainforest ecosystems, conservation, and the value of biodiversity at The Green Planet through educational exhibits and hands-on activities.

Animal Experiences and Encounters:

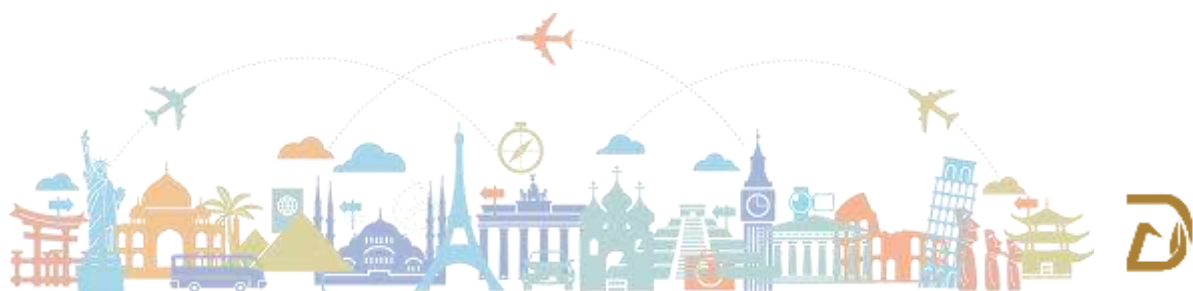

You could be able to partake in animal interactions, narrated tours, and feeding sessions depending on the package you select.

From professional guides, learn about the traits and behavior of creatures in the rainforest.

Café Rainforest:

The Green Planet is a café with a rainforest motif where you may relax and have drinks while surrounded by luscious foliage.

Opportunities for Photography:

DEVOTION

TRAVEL AND TOURISM

The Green Planet's colorful and picturesque surroundings present a plethora of chances for taking beautiful pictures.

Activities and Workshops:

Special events, seminars, and educational programs are occasionally held by The Green Planet, giving visitors more opportunities to interact with the rainforest environment.

Family-Friendly:

The Green Planet is a fantastic destination for families, students, and nature lovers because it is appropriate for visitors of all ages.
